WHO WE ARE

ABOUT OUR COMPANY

Power Core Steel Company is a trusted steel and contracting company committed to delivering high-quality, reliable and cost-effective solutions. We specialise in professional steel works and construction services, with a strong focus on quality, safety and customer satisfaction.

Our team supports clients across the construction, industrial and energy sectors from our head office in Al Taawun District, Tabuk, Kingdom of Saudi Arabia. Whether a project calls for fabricated steel components, full structural erection, ongoing industrial maintenance, or skilled manpower on site, we apply the same discipline on every job — built right, built safe, built to last.

03

OUR DIRECTION

MISSION & VISION

OUR MISSION

Power Core Steel Company's formal mission statement will be added here once finalised by company leadership.

OUR VISION

Power Core Steel Company's formal vision statement will be added here once finalised by company leadership.

WHAT GUIDES US

CORE VALUES

Quality

Consistent quality control across fabrication, erection and maintenance work.

Safety

Workplace safety and HSE procedures built into every stage of every project.

Reliability

Dependable, cost-effective delivery clients can plan their own projects around.

Customer Satisfaction

A responsive, accountable team focused on getting the client's outcome right.

04

OUR ADVANTAGE

WHY CHOOSE POWER CORE STEEL

End-to-End Capability

From fabrication to final installation, our teams carry a project through every stage on site.

Skilled Workforce

Scaffolders, welders, fabricators and steel fixers ready to deploy across the Kingdom.

Safety & Quality First

HSE and quality control are built into planning, fabrication, erection and maintenance alike.

Single Point of Accountability

General contracting coordinated end-to-end by our own project teams, start to finish.

05

WHAT WE DO

OUR SERVICES

Six core service lines, backed by welding, scaffolding and general contracting capability across every stage of a project.

01

Steel Fabrication

Custom steel structures and fabrication work engineered to project specification, from concept through to finished component.

INCLUDES WELDING SERVICES

02

Structural Steel Works

Steel structures for buildings, warehouses and industrial projects, built to withstand demanding operating environments.

BUILDINGS · WAREHOUSES · INDUSTRIAL

03

Steel Erection & Installation

On-site erection and installation of steel structures, delivered by experienced crews to strict safety standards.

INCLUDES SCAFFOLDING ERECTION & DISMANTLING

04

Industrial Maintenance

Ongoing maintenance for industrial sites and steel structures, keeping assets safe, compliant and running.

PLANNED & REACTIVE MAINTENANCE

05

Manpower Supply

Skilled workers supplied directly to your site — scaffolders, welders, fabricators, steel fixers and more.

FULL TRADES LIST → PAGE 10

06

General Contracting

Contracting solutions for construction and industrial projects, coordinated end-to-end by our project teams.

SINGLE POINT OF ACCOUNTABILITY

06

CORE CAPABILITY

STEEL FABRICATION & STRUCTURAL WORKS

Two closely linked capabilities — turning specification into fabricated steel, and building the structures that put it to work.

Steel Fabrication

Custom steel structures and fabrication work, engineered to project specification from concept through to finished component.

- Includes welding services
- Custom fabrication

Structural Steel Works

Steel structures for buildings, warehouses and industrial projects, built to withstand demanding operating environments.

- Buildings
- Warehouses
- Industrial facilities

07

ON-SITE CAPABILITY

ERECTION & INDUSTRIAL MAINTENANCE

Getting fabricated steel safely into place, then keeping it — and the sites around it — running.

Steel Erection & Installation

On-site erection and installation of steel structures, delivered by experienced crews to strict safety standards.

- Includes scaffolding erection & dismantling

Industrial Maintenance

Ongoing maintenance for industrial sites and steel structures, keeping assets safe, compliant and running.

- Planned maintenance
- Reactive maintenance

08

DELIVERY MODEL

GENERAL CONTRACTING

Contracting solutions for construction and industrial projects, coordinated end-to-end by our own project teams — a single point of accountability from planning through to completion.

- Single point of accountability
- Construction projects
- Industrial projects

Welding Services

Professional welding and metal joining solutions supporting fabrication and erection work across every project.

STRUCTURAL & FABRICATION WELDING

09

SKILLED WORKFORCE

MANPOWER SUPPLY

We supply trained, site-ready workers to construction and industrial projects across Saudi Arabia — deployed where projects need them.

01

Scaffolders

Erection & dismantling

02

Welders

Structural & fabrication welding

03

Fabricators

Custom steel fabrication

04

Steel Fixers

Reinforcement & structural fixing

05

Other Skilled Trades

Additional roles supplied on request

Skilled workers, deployed where projects need them — from single trades to full project crews.

10

HEALTH, SAFETY & QUALITY

HSE & QUALITY

Safety and quality are built into every stage of our work — from planning and fabrication through to erection and site maintenance. We hold our teams to strict workplace safety practices and consistent quality standards on every project.

01

Health & Safety

Safety procedures and site protocols designed to protect our workforce and everyone on site.

02

Quality Standards

Consistent quality control across fabrication, erection and maintenance work.

03

Workplace Safety

Trained crews and clear procedures for scaffolding, erection and industrial site work.

04

Company Policies

Clear internal policies guiding how we operate, hire and manage every project.

11

WHO WE SERVE

OUR MARKETS & CAPABILITY

Built for industrial & contracting partners across the Kingdom of Saudi Arabia.

01 **Construction & contracting companies**

02 **Industrial, oil & gas companies**

03 **Project developers & main contractors**

04 **Government & semi-government bodies**

05 **Facility management & maintenance firms**

06 **Companies seeking skilled manpower**

OUR CAPABILITY

WHERE WE DELIVER

Construction & Buildings

Structural steel works for buildings, warehouses and general construction projects.

Industrial Sites

Erection, installation and ongoing maintenance for industrial facilities and steel structures.

Energy & Contracting

Contracting and manpower support for energy-sector and large-scale project requirements.

12
